

# ENACTUS

Somaiya Social Cell

## VISION

**To create a better, more sustainable world and foster the spirit of inclusivity where we all win.**

## MISSION

**Our mission is to inculcate knowledge and spread the spirit of free enterprise in target communities, thereby offering them the opportunity for sustainable development and a sustainable source of income.**

# ROLES & RESPONSIBILITIES

**We believe in empowerment of people in need, which we trust is a long term solution to making them self dependent. We achieve this by:**

- **Providing opportunities for development of the skills of volunteers, to become socially responsible business leaders of tomorrow.**
- **Carrying out social projects that have great impact on the society by providing them a sustained source of income.**
- **Constantly innovating and introducing new products.**
- **Creating awareness & imparting financial literacy to the underprivileged sections of society through our project Finlit.**
